

# ISL REVEALS US TEAMS ROSTERS AHEAD OF THE ISL SEASON 2 COMPETITIONS IN BUDAPEST

Paris, September 24<sup>th</sup> 2020

As announced during the Season 2 launch press conference, the International Swimming League (ISL) has chosen to host its 2020 regular season and semi-finals in a single location with a condensed 5-week schedule from October 16, 2020. The world-renowned Duna Arena in Budapest, Hungary will serve as the venue, for the only major competition to feature the world's best swimmers this year.

US teams, today unveiled their full rosters, set to compete in Budapest including **DC Trident** (Washington), **LA Current** (Los Angeles), **Cali Condors** (San Francisco) and **New York Breakers** (New York).

They will pride themselves having their performances live broadcasted in their home country on CBS Sports, following a multi-year media rights agreement to showcase ISL's events across the network's platforms. CBS Sports will present the entire 2020 ISL season of 13 events, 52 hours in total, live across various platforms.

Commenting on the announcement of the US teams rosters, Apostolos Tsagkarakis, ISL Technical Director declared: *"This is going to be an amazing season for all four US-based teams. We are aware that the situation around the world in 2020 has been challenging at least, but we have been presented with an opportunity to change the world of sports. DC Trident is returning some of their athletes from Season 1 and having added athletes that are hungry for success, I am sure they will be more competitive than last year. LA Current, having participated in the Grand Final in Las Vegas last December, are only aiming for higher placing with a very strong group of athletes. Cali Condors came close to last year's championship and with all of their women's roster compiled by American swimmers, they will pride themselves to win as many event as possible; the European teams that finished above them last year, must be careful this time around. NY Breakers added a big name on the staff [Martin Truijens, Head Coach] and did a great job recruiting this year and I certain that they are aiming to win as many events as possible during the whole season."*

**Next full teams Roster to be announced:**

September 30, 2020: Toronto Titans, Team Iron, Energy Standard Paris

October 7, 2020: Aqua Centurions, London Roar, Tokyo Frog Kings

The DC Trident is trained by Head Coach Cyndi Gallagher, led by general manager Kaitlin Sandeno and based in Washington DC.

6. Amy Murry	USA	Physical Therapist
7. Gale laboard	USA	Physical Therapist

The LA Current is trained by Head Coach Dave Marshled, led by general manager Lenny Krayzelburg and based in Los Angeles. In 2019, LA Current beat state rival Cali Condors in the American derby in Washington DC, and they are definitely aiming to repeat such performance this year against them and also see how their team will stack against the stronger European teams.

7. Brian Campbell	USA	Physical Therapist
8. Hilla Reuveny	ISR	Physical Therapist

The Cali Condors is trained by Head Coach Jonty Skinner, led by general manager Jason Lezak and based in San Francisco. In 2019, during ISL's season 1, one of Cali Condors major achievements was elite swimmer Caeleb Dressel winning the MVP award in 3 out of 4 matches including the Grand Final in Las Vegas and it's definitely in their goals to beat Energy Standard and London Roar in regular season.

## ABOUT THE ISL

---

The International Swimming League (ISL) is the world's first professional team swimming league. Founded in 2019, the ISL consists of 10 global clubs with rosters stockpiled with the best female and male swimmers on the planet. Its unique competitive format where "every race is a final," raucous in-venue atmosphere, celebration of gender equity and global footprint make ISL not just unique in swimming, but in the world of sports at large.

### North American Teams:

---

**Cali Condors**

**DC Trident**

**NY Breakers**

**LA Current**

**Toronto Titans**

(new entry for 2020 season)
